Location: <b>Division of Management and Administration Office of Health Information Technology 55 North Willow Street, 2nd Floor, Trenton, NJ 08618</b>			Scope of Eligibility/Open to: <b>Applicants who Meet the Requirements</b>

### GENERAL DESCRIPTION

Under close supervision the Software Development Specialist 1 will be responsible for supporting the development of web-enable New Jersey Immunization Information (NJIS). The position will test code and unit software components as well as preparing this test data for unit and integrating testing for child lead data. This resource will prepare flowcharts, block diagrams and code program modules of the least complexity for applicant systems development.

This position will represent the Office of Health Information Technology (HIT) in the area of applications development. Will attend meetings with potential and current clients, user group meetings, professional seminars, training session, vendor meetings, etc., as required. The Software Development Specialist 1 will research, learn, and utilize Esri's ArcGIS (geographic information systems) mapping software, the Master Patient Index (MPI), as well as develop and maintain programs for NJIS.

This position will both maintain existing software applications and support new development efforts using the above noted technologies. Furthermore, the ideal candidate for the position will be a collaborative team player that has proficient verbal and written communication skills, attention to detail, and the ability to produce a quality work product with minimal supervision.

This position may be eligible to participate in the Department's pilot telework program, which offers eligible employees the opportunity to work remotely for up to two (2) days per week, as approved by management.

### REQUIREMENTS (EDUCATION / EXPERIENCE / LICENSES)

**NOTE:** Applicants must meet one of the following or a combination of both experience and education. Thirty (30) semester hour credits are equal to one (1) year of relevant experience.

Five (5) years of professional experience in programming, systems programming or computer analysis.

OR

Possession of a bachelor's degree from an accredited college or university; and one (1) year of the above-mentioned professional experience.

OR Possession of a master's degree in an information technology field.

**NOTE:** "Professional experience" refers to work that is analytical, evaluative, and interpretive; requires a range of basic knowledge of the profession's concepts and practices; and is performed with the authority to act and make accurate and informed decisions.
